 Re: COVID-19 Prevention and Protection

COVID Count

ACTIVE cases	
Residents	Staff
0	1

RECOVERED cases	
Residents	Staff
25	44+7

"+7" refers to a non-staff provider

Some good news...our one positive case above is set to move to recovered tomorrow.

Vaccine Clinic and Stats

Our third vaccine clinic yesterday was a success – thank you to the many who planned for and flawlessly executed the event and for the warmth and excitement in those who showed up for their vaccination.

I spent some time yesterday morning helping out at the registration table and then, later in the afternoon, worked the laminating station for vaccine cards. From these two posts, I had the chance to interact with and observe dozens of residents and staff, and worked alongside others who were part of running the clinic. Yesterday reminded me that, for all that looks different about life these days, we are still us. We are still the warm, funny, caring, connected, grateful community we have always been. That Admiral spirit is alive and well in us. What a gift to see that again in a new way during yesterday's clinic experience.

At the close of yesterday's clinic, we saw 99% of Harbors residents, 98% of IL residents and 76% of staff receive the vaccine. Some who did not receive the vaccine are not eligible and/or may not be physically present in the building. These are great stats! We will do everything we can to support accessibility of the vaccine for existing and incoming residents and staff over time.
