 Re: COVID-19 Prevention and Protection

COVID Count

ACTIVE cases	
Residents	Staff
0	0+1

"+1" refers to a non-staff provider

RECOVERED cases	
Residents	Staff
25	46+7

"+7" refers to a non-staff provider

Correction Corner

The positive case of COVID I reported yesterday was not an Admiral employee but a private caregiver who works with a resident in our community. I apologize for my error in reporting. In some ways, a positive case is still a positive case but I think it's important to mention as a private caregiver interacts with far fewer people than someone on staff might.

Required Testing for Staff Today

All staff are required to test today. Testing is available from 10 am to 1 pm in the 6th floor conference room and from 1 pm to 5 pm on the 8th floor of The Harbors.

Next Steps for Us

The aforementioned testing is a direct result of the positive case reported yesterday and is required. Once all Harbors' residents and all staff have results in, we will know how we will proceed. What we know now is that the 10th floor of The Harbors will reopen in the next 14 days as long as there are no additional cases. If there are no new cases identified from the testing done yesterday and today, visitations, dining and group activities will resume in The Harbors with the exception of the 10th floor until they are out of quarantine.

For now, we need to ask that Harbors' residents remain on their floor of The Harbors and avoid moving about The Harbors or the community. We are also asking that IL residents stay on the IL side of the community.

More to come after all results are in and fingers crossed we have them by Monday morning.
