Re: COVID-19 Prevention and Protection

### COVID Count

ACTIVE cases	
Residents	Staff
0	0

"+1" refers to a non-staff provider

RECOVERED cases	
Residents	Staff
26	46+8

"+8" refers to a non-staff provider

### Harbors' Visitation Reminders

We have become aware of some confusion among residents about the protocols surrounding interactions between residents living in IL and those living in The Harbors. Here is a reminder for those who need it.

If a resident residing in IL comes over to The Harbors to visit with a Harbors' resident in the Harbors' building, that visiting resident is required to sign up for a visit and to be screened in the lobby before coming up.

If a resident residing in IL comes over to The Harbors' to pick up a Harbors' resident and take them somewhere other than The Harbors building, no advance sign up is required. We do ask that you still go to the lobby to be screened before going into The Harbors.

Why do we require sign-ups for people visiting in The Harbors for a period of time? Two primary reasons:

1. If we were to have a positive case of COVID in The Harbors, this information helps support a more robust contact tracing exercise.
2. We need this information to appropriately manage the body count in The Harbors' building against current regulations or guidance.

### Harbors' Residents in Bistro and Waterfront

Unfortunately, guidance still requires a separation of Harbors' residents from the Bistro and Waterfront. This is intended to keep residents of a licensed healthcare facility safe from the general public. We are excited for the day that we can welcome Harbors' residents back to these parts of their community and will do so as soon as guidance allows.
